OFFICE OF THE SECRETARY

Subject: Make the cable TV industry work for consumers

Dear FCC Chairman Michael K. Powell:

I urge you to act to break the cable TV price spiral today. Nationally, cable rates have been rising at three times the rate of inflation. At the same time, cable companies lag behind in customer service and cable employees' standard of living stagnates.

You are evaluating the largest merger in cable history -- between the systems of the largest (AT&T) and third largest (Comcast) cable companies. Together, these combined systems would serve about 40 percent of the nation's subscribers, about 22 million customers with over \$19 billion in annual revenues.

Companies claim that merging will create savings and provide a boon to consumers. But savings in past mergers and consolidations have benefited companies, not consumers, and prices have continued to climb while service deteriorates.

As you review the \$72 billion AT&T Broadband Comcast merger, please address my concerns.

Sincerely,

Debbie Goldman
